Works perfectly with missions, not sure about online battles, but do not use online battles because you can get banned. If you installed the previous version you can only install second installation and continue with the new update 10.6.1 Read below Important!!!!!! The latest update is already enabled, so you don't have to install 2 apk, just install that, and the game needs to load fine, but make sure that storage permissions go manually to setup > applications > dragon city > permissions and then allow storage permissions.
